

OMECC HEALTH & SAFETY AND INJURED WORKER SURVEY

We want to hear *from you!*

Dear CUPE members,

The Ontario Municipal Employees Coordinating Committee (OMECC) would like you to fill out a Health & Safety and Injured Worker Survey!

As we emerge from the long and difficult period of COVID, workers across the sector have told us they face many challenges to both their mental and physical health. Many members are not aware of the resources and support available to them.

This CUPE survey provides an opportunity to share your stories and tell us the steps you believe are necessary to support injured workers and improve health and safety in Ontario.

The survey results will help us identify key priorities for bargaining and political action among CUPE members in Ontario. The results will be completely anonymous, and your confidentiality will be protected.

The survey closes at the end of the day on **Monday, October 2nd**.

Thank you for your assistance with this important survey project.
