

WHSC INSTRUCTOR TRAINING... for safer, healthier work

Workers Health & Safety Centre (WHSC) staff and leadership take great pride in our role as Ontario's official government-designated occupational health and safety training centre. We know the quality training we develop, and deliver is the first step towards prevention of worker, injury, illness and death, and promotion of worker well-being overall.

At the heart of our work though are WHSC-qualified instructors. They make possible our innovative and unique "workers training workers" delivery model. Each course we offer is instructor-led. Each is designed to ensure action and learning objectives are met by all learners. For our instructors this means implementing the best of adult education principles and practices in WHSC in-person and virtual classrooms. No small feat – but accomplished daily in training facilities and workplaces throughout Ontario communities and a growing array of work sectors.

Want to join us in this essential and inspiring work? WHSC is once again offering Instructor Training in WHSC training facilities across Ontario this fall. And again we are waiving our fee for participation.

WHSC INSTRUCTOR TRAINING

The benefits

Benefits to individuals attaining credentials as a WHSC-qualified instructor are many. Successful completion enables them to:

- ▶ Claim the status of a trainer for Ontario's official government-designated health and safety training centre, plus the knowledge, skills, and confidence that come with it
- ▶ Help co-workers, supervisors, employers, and where present, joint health and safety committees, worker health and safety reps and/or worker trades committees, understand and fulfill their health and safety rights and responsibilities
- ▶ Support organizational prevention efforts to achieve safer, healthier work
- ▶ Contribute to the well-being of others in Ontario communities when instructing (and when available to facilitate) scheduled courses hosted by WHSC
- ▶ Develop adult education skills applicable to a host of work-related issues.

Sponsoring organizations also benefit greatly. Recommended instructors will provide invaluable in-house capacity to:

- ▶ Coordinate training around work schedules
- ▶ Eliminate time and costs associated with travelling to offsite training
- ▶ Lead training that ensures specific organizational health and safety needs and the context in which they arise are fully considered
- ▶ Advance access to added WHSC benefits such as
 - ▷ preferred pricing
 - ▷ full training logistical services
 - ▷ custom material options, and
 - ▷ supporting research and information into specific health and safety concerns.

Come train with us. Apply today.
